IT'S ALL IN THE DETAIL

REHAU – THE NAME YOU CAN TRUST

SIMPLY SUPERIOR DESIGNS

If you're looking for enduring quality and beauty coupled with the latest window and door technology, the REHAU 70mm and REHAU Edge window and door systems offer everything you could ask for. Crafted from highly durable PVC-U, they combine outstanding standards in energy efficiency and performance with stunning contemporary profiles.

As the leading manufacturer of PVC-U window and door systems, REHAU enjoys an enviable reputation for high standards and amazing designs. With over 40 years' extensive experience in producing the highest quality PVC-U systems, our exceptional products ensure your installer receives only the best for your home or workplace.

So – whether you're searching for REHAU window and door systems (available in modern White or traditional woodgrain finishes such as Mahogany, Rosewood and Golden Oak) or complete PVC-U buildings solutions for a new or more energy efficient home – log on to www.rehau.co.uk to find out more.

MODERN BENEFITS

EFFORTLESS STYLE

Should you choose REHAU 70mm or REHAU Edge? REHAU's 70mm window and door systems are simply beautiful, contemporary frames, whereas REHAU Edge products are fully sculptured window and door systems for the more style-conscious home-owner or developer. You should choose the windows or doors you feel would best complement your space – but as BOTH are made from durable PVC-U, they also help to:

Save heat and energy

Much of the heat loss from a building occurs through glazing. The three-chamber design of the REHAU 70mm and REHAU Edge collections enable your home to enjoy greater thermal efficiency. Your new REHAU 70mm and Edge window and door systems can be made more energy-efficient to achieve a BFRC* energy rating from C to A (the highest possible rating) depending on the specification you choose, and keep your home warmer and draught-free, as well as saving you money on heating bills. Ask your installer for more details.

*BFRC stands for the British Fenestration Rating Council

The BFRC is an independent, government-backed initiative set up to enhance the energy performance of buildings. Window systems can be rated from A (the highest energy performance) to G (the lowest). Windows that are C rated or better – like your new REHAU 70mm and REHAU Edge windows – are included in the Energy Saving Trust scheme and achieve an Energy Saving Recommended mark, which offers you increased peace of mind – and, of course, increased energy savings.

| Energy Window | |
|--|---|
| Rehau S706 PVC-U Casement Window | |
|  |  |
| Energy Index (kWh/m ² /year) <small>(Energy Index certified by BFRC and based on UK standard window. The actual energy consumption for a specific application will depend on the building, the local climate and the indoor temperature)</small> | 2 |
| The climate zone is: | UK |
| Thermal Transmittance (U _{window}) | 1,35 W/m ² .K |
| Solar Factor (g _{window}) | 0,43 W/m ² .K |
| Effective Air Leakage (l _{-factor}) | 0, W/m ² .K |

| <small>This label is not a statutory requirement. It is a voluntary label provided as a customer service to allow consumers to make informed decisions on the energy performance of competing products.</small> | |

Conserve the environment

All REHAU Edge and 70mm window and door systems comply with building regulations on the conservation of fuel and power, which helps you to do your bit for the environment.

Cut outdoor noise levels

REHAU Edge and 70mm door and window systems enable you to enjoy peace and quiet too. Used with double-glazed sealed units, they can radically reduce outdoor noise levels.

Safeguard your home

REHAU Edge and 70mm window and door systems have been awarded the BS7950 and PAS 23/24 window and door security standards and are designed with ample internal chambers, which enable the installation of larger steel reinforcements for increased rigidity and strength. This helps to make your home more secure.

Plus: Little or no maintenance required

REHAU Edge and 70mm door and window systems contain a unique compound and have a smooth gloss finish – which ensure they retain their pristine appearance. It also means they will never warp, rot or need regular painting – unlike their wooden counterparts – for superior quality that doesn't grow on trees.

Why not replace your windows and doors together?

REHAU Edge and 70mm products can be offered as part of an integrated door and window systems package. Please contact your installer for more details. For absolute peace of mind, REHAU Edge and 70mm window systems are kitemarked to BS (British Standard) EN12608:2003 and have been assessed by the BBA (British Board of Agreement, No. 1309). For more details on accreditations obtained by REHAU window and door systems please visit www.rehau.co.uk

WINDOW SYSTEMS

A FRAME TO SUIT EVERY ROOM IN YOUR HOME

REHAU Edge and 70mm window systems make your home more attractive and comfortable, and, if you choose the right style for your property, they can also add great value.

Great style...even greater choice:

First, why not choose a look for your home. The versatile REHAU Edge and 70mm system ranges include:

- casement windows with internal or external beading
- bay or bow casements
- French windows (perfect as fire escape windows)
- 'tilt and turn' windows (great for easy cleaning from the inside)
- fully reversible windows (making cleaning even easier)

'Invisible' gaskets

REHAU Edge and 70mm window and door systems feature low-level beads and gaskets, which sit level with the frames and are much less obtrusive than standard options. In fact, they're almost invisible, ensuring a beautiful finish for all your windows.

Would you prefer contemporary chic...or a traditional twist?

We find the clean, modern lines of our REHAU Edge and 70mm system ranges are extremely versatile and suit most homes. But if you prefer a more traditional profile, features can be added to create an authentic period look. For instance, REHAU 70mm window systems can replicate traditional joinery features with sculptured

sashes and matching sculptured glazing beads. The REHAU Edge system collection offers a beautiful, fully sculptured system. However, if you're looking for a modern window to complement your property, chamfered sashes are the ideal accompaniments.

DOOR SYSTEMS

FOR THE WARMEST OF WELCOMES

REHAU Edge and 70mm door systems can help you create the impression you want – every time you open the door. Plus, with so many styles and finishes to choose from, you'll find a door to suit every room and décor.

Choose from:

- French doors – the popular alternative to sliding patio doors
- multi-fold doors – to maximise the available opening. Harsh-weather tested for external use, they also provide the ideal solution for indoor open-plan living
- 'tilt and slide' patio doors
- stable doors – particularly suited to older style properties
- striking residential front doors
- composite doors
- porches and conservatories – providing the window and door elements

A look that suits your home

Whether you're looking for a sleek, modern, cottage-style or period-look door, the REHAU Edge and 70mm system ranges offer the perfect solutions.

Wheelchair friendly

Wheelchair-bound residents and visitors can enjoy easy access to your home, because all REHAU Edge and 70mm door systems comply with the latest building regulations and boast low-level threshold options.

Greater household protection

REHAU Edge and 70mm door systems can offer your home better levels of security. Conforming to British Standard and Secured By Design safety standards, doors boast ample internal chambers, which enables us to install larger steel reinforcements for increased security and strength.

Create more space

Why not create more usable space around your doorway by adding extra features, such as:

- a stylish porch – to provide a spacious feel for your home
- a conservatory – a stunning way to create an extra room within your home. See the REHAU Conservatories brochure for more details.

WINDOW AND DOOR SYSTEMS

A PERFECT MATCH

REHAU's exclusive extra design features enable you to tailor your REHAU Edge and 70mm window and door systems to suit your home:

Choose your finish

Whatever look you want to achieve with your windows and doors, REHAU's Edge and 70mm systems can provide it. All windows and doors are available in a modern White finish, or romantic Rosewood, rich Mahogany and Golden Oak shades for a natural look.

Choose from over 150 extra colours

There are also 150 further colour options to choose from, using the unique REHAU Acryl II colouring system. Simply ask your fitter for more details.

Match your windows to your décor!

You can even install windows that complement your interior décor – for example, a clean white finish on the inside, but a different colour or effect on the outside.

Special features for your frames:

Although the REHAU Edge and 70mm system frames enjoy all the energy-saving and security benefits that come from being crafted from durable PVC-U, simple extra features mean you can still achieve an authentic traditional look for your home. So you can enjoy the best of both worlds...

- Run-through sash horns add an authentic touch and a consistent colour, as they are made from the same material and colour as your chosen frames.
- Clip-on Georgian bars offer a quality, period finish.

A beautiful choice of glass

Choose from clear, patterned or stained glass. If you have a more traditional property, then leaded or bevelled glazing styles can create an extra-special look.

Our verbal and written application engineering advice is based upon experience and the best of our knowledge. However it is to be regarded as non-binding information. Working conditions and use under conditions for which the product was not intended and over which we have no influence exclude any claim resulting from our information. We recommend that a suitable check is made as to whether the REHAU product is suitable for the envisaged purpose. Application, use and processing of the products is carried out beyond the scope of our control and are therefore carried out exclusively at your own responsibility. If liability should still apply, then this is restricted, in the case of all damage, to the value of the goods supplied by us and used by you.

Our warranty applies to the consistent quality of our products as per our specification and in accordance with our general terms and conditions of delivery and payment.
